

Framsden District Councillor report March 2024

| | |
|---------------------------|---|
| Council Budget agreed | The first Green Administration budget was agreed by Council in February. There will be a 2% increase in Council Tax (lower than most authorities). The cost of services to residents and communities is expected to rise by £1.8M, and Core Government funding is not matching the inflationary pressures, so the modest council tax increase should help protect services and build on the new priorities of the Council. The Green Administration is putting environmental sustainability and social justice at the heart of all its activities. |
| Housing Revenue Budget | The housing revenue budget will have financial challenges ahead, most notably an increase of £1.1M in the cost to run the housing service. The housing revenue account and council general fund account are completely separate so there is no way to cross subsidise from one account to the other. There will be a 7.7% increase in housing rents this year just to keep pace with rising costs. There will also be increases in both service and utility charges for sheltered housing tenants. Advice and help for those struggling with finances is available from the Council. |
| Council of the Year Award | The councils of Mid Suffolk, with a Green Party administration, and Babergh, that is Independently led, have just been jointly awarded <i>Council of the Year</i> for their collaboration and focus on their communities. This was awarded by the iESE, a not-for-profit organisation created by local authorities as a shared resource to transform public services and retain experience within the sector. |
| Rural Transport grants | A new rural transport grants scheme has just been launched to help provide passenger transport options across the district. Existing community transport operators can apply for funding before 15 th April. More details are available here: https://midsuffolk.gov.uk/rural-transport-grants-scheme . The Vertas Bus project is hoping to gain help from this fund. |
| Joint local plan part 2 | All parish and town councils across both districts have all been invited to complete a questionnaire about the services and facilities present in each area. This information is needed to prepare the next phase of the Joint Local Plan. |
| Energy efficiency grants | Funding is available to help residents with the cost of installing loft insulation, in partnership with Travis Perkins. There are four product options available and residents will receive a 50% discount off their purchase (up to £200), with free delivery. According to The Energy Saving Trust, it is estimated that an uninsulated home loses a quarter of its heat through its roof. Correctly installed insulation should pay for itself many times over in its 40-year lifetime. More details can be found at the Green Suffolk website https://www.greensuffolk.org/at-home/grants/ . |
| Tree Cover | SCC has secured over £200K from the Government's local authority Treescapes Fund for over 1500 new trees in a bid on behalf of all Suffolk councils, including MSDC. The funding will go toward planting as well as maintaining the trees. |
| Locality awards 2023/2024 | My locality budget for the year is now fully accounted for. I am pleased to have been able to contribute to a range of projects in the ward. As well the ditch at Forward Green this has included a new Multi use games area in Crowfield, support to ensure the survival of the football club and a new speed indicator in Stonham Aspal, and replacement of flood damaged equipment for the Debenham First Responders, who cover a substantial part of the ward. |
